

## iLEPO 140W High-Power 8-Port Charging Station W-518

### Hot Selling Point

- Say hello to effortless charging with this high-performance 8-port desktop charging station that delivers a massive 140W total output. Featuring 4 USB-C ports (including a blazing-fast 65W PD port for laptops) and 4 USB-A ports (with QC3.0 support), plus a convenient 15W wireless charging pad, this powerhouse keeps all your devices juiced up simultaneously. Whether you need to charge your MacBook Pro, iPad, iPhone 15, Samsung Galaxy, or AirPods, this station handles it all with intelligent power distribution.
- Engineered for fast, safe, and efficient charging, this station uses advanced GaN technology to minimize heat generation while maximizing power delivery. The smart charging IC automatically detects connected devices and adjusts output to provide the optimal charging speed for each one. Built with premium fire-resistant materials (ABS+PC shell), it offers superior durability and protection against overheating, short circuits, and power surges.
- Designed for home, office, and travel use, this versatile charger supports universal 100-240V voltage and comes with 4 interchangeable plugs (US/EU/UK/AU)—making it the perfect companion for international trips. The sleek, space-saving design (just 120×95×50mm) fits neatly on your desk, nightstand, or in your backpack, while the 1.2m detachable power cord provides flexible placement options.
- With 8 charging ports and wireless charging capability, this station eliminates the need for multiple chargers and tangled cables. It's the ideal solution for tech enthusiasts, busy professionals, and travelers who demand reliable, high-speed charging for all their devices.
