

iLEPO charger 6-Port 110W Desktop Charging Station W-401

Hot Selling Point

- Keep all your gadgets charged and ready with this versatile 6-port charging hub. The station delivers a powerful 110W total output, featuring a combination of fast-charging technologies to meet all your power needs.
- The USB-C PD port provides 20W of power for quick iPhone charging, while the QC 3.0 port delivers 18W for compatible Android devices. Four additional smart USB-A ports automatically adjust to provide optimal charging for any connected device.
- Designed for global travelers, this charging station works anywhere in the world with its 100-240V voltage range. The package includes four interchangeable plugs (UK, EU, US, and AU versions), making it perfect for both home use and international travel.
- Its compact 170×130×38mm design takes up minimal space on your desk or nightstand, while the included cable holder helps keep your charging area neat and organized.
- Safety is built in with multiple protection systems certified by CE, FCC, RoHS, EMC, and UL standards. The station automatically prevents overcharging, overheating, and short circuits, giving you peace of mind while charging your valuable devices. Available in three stylish colors (gray, black, and white), this charging hub combines functionality with sleek modern design.
